The Medinah School District will be hosting The DuPage County Health Department for vision and hearing screening this spring. This service has been on hold for the past two years, and we are very happy to welcome them back! Please review the following information:

- **The DuPage County Health Department staff require all students to wear a face mask while they are being screened for vision and hearing.**
 - Please pack a face mask for your child - this will help us greatly! Of course, we will have extra masks for any students who need one.
- Screenings take about five minutes.
- Students who obtained an eye exam by a physician this school year, and those who wear glasses, will not be screened for vision.
- If a student does not pass their screening, parents/ guardians will be notified so they may follow up with an eye or ear doctor.
- Students who are not able to understand the instructions or participate in screenings will be marked “unable to test” and may try again next year. (This is common for our preschool students)

We look forward to hosting these important screening events for our school district! Below you will find dates for both initial screenings and re-screenings. If you have any questions, please contact your child’s school.
