

New Immunization Requirements Effective, fall, 2014.

For incoming Kindergarten:

- ✓ 2 doses of live **rubella** virus vaccine, the first dose on or after the first birthday and the second dose no less than four weeks (28 days) after the first dose.
- ✓ 2 doses of live **mumps** virus vaccine, the first dose on or after the first birthday and the second dose no less than four weeks (28 days) after the first dose.
- ✓ 2 doses of **varicella** vaccine, the first dose on or after the first birthday and the second dose no less than four weeks (28 days) after the first dose. If child had the varicella disease, a physician's note is required.

The majority of students receive the rubella and mumps through a single immunization called the MMR.

For incoming 6th and 9th graders:

- ✓ 3 doses of **Hepatitis B** vaccine. The first 2 doses have to be at four weeks (28 days) interval. The interval between the second and third dose shall be at least 2 months apart. The interval between the first and third dose shall be at least four months.
- ✓ 2 doses of live **rubella** virus vaccine, the first dose on or after the first birthday and the second dose no less than four weeks (28 days) after the first dose.
- ✓ 2 doses of live **mumps** virus vaccine, the first dose on or after the first birthday and the second dose no less than four weeks (28 days) after the first dose.
- ✓ 2 doses of **varicella** vaccine, the first dose on or after the first birthday and the second dose no less than four weeks (28 days) after the first dose. If child had the varicella disease, a physician's note is required.
